COOKIES

What are cookies?

Cookies are files (text files) that contain small amounts of information. This information is downloaded and stored on the user's device, through their browser, when visiting a web page, retaining only information related to the user's preferences, thus providing a more personalized experience on the site.

What are Cookies for?

Cookies are used to help determine the usefulness, interest and number of uses of web pages, allowing for faster, more efficient and better quality navigation, eliminating the need to repeatedly enter the same information.

Cookies are essential for the functioning of the Internet and do not damage your equipment or device and, if they are activated in your browser configuration, they help not only to identify but also to solve possible errors in the operation of the website.

Should I accept the use of cookies?

It is important to note that the use of cookies is essential for the correct functioning of the website in its entirety, so we recommend its acceptance.

However, you can always prevent the setting of cookies, for this you will have to adjust the settings in your browser (s), referring to your browser's "Help" which will give you instructions on how to disable cookies. Cookies.

Please note that disabling cookies will affect the functionality of this and many other sites you visit.

You can find more specific information on how to manage cookie preferences by the most popular browsers at:

- Microsoft Edge
- Google Chrome
- Mozilla Firefox
- Microsoft Internet Explorer
- Opera
- Apple Safari

You can always find information on cookie management for other browsers by visiting the provider's website.

There is a "do-not-track" functionality in most browsers (Chrome, Internet Explorer, Mozzila Firefox, among others), which allows visitors not to be tracked.
